

Prescription Savings: Get your drug on (sale)!

Your freshbenies prescription discount helps you save 10-85% on most medications - for your family and pets. Use your Rx pricing tool to quickly find the best price across multiple savings networks. There are 2 ways to save:

1. **Your local pharmacy** Save on most brand and generic prescriptions at 60,000+ pharmacies nationwide.
2. **Home delivery** Order your prescription at a discounted price for home delivery and receive FREE standard shipping.

Not sure if there's a discount on your drug? Here are some tips:

- 1 **Get a price quote!** To find the biggest savings, use your member portal or app to get a price for your drug/dosage at participating pharmacies in your area or with home delivery. Prices vary between pharmacies, so check first!
- 2 **Try it!** Select your preferred option from your Rx search results and download the Savings Card to show the pharmacist and pay the discounted price.

For home delivery, click this option in your Rx search results and set up your account to place an order.

- 3 **Ask!** Call our Member Services at 1.855.647.6762 – we're here to help.

“With insurance, my monthly prescription was \$88, but with freshbenies, it's only \$48. The first time I used my freshbenies membership, the pharmacist was skeptical and assured me that nothing was going to be cheaper than using my insurance. I asked her to run my freshbenies info anyway and when the total came out \$40 cheaper, she was so impressed she asked me how you get freshbenies! — Krystal, TX”

Q&A About Prescription Discounts

SAVINGS

Q: What is a Prescription Savings or Discount Plan?

Answer: Drug pricing can vary greatly from one pharmacy to the next – and local pick-up vs. home delivery. Most Americans don't even know it. A Prescription Savings Plan or Prescription Discount Program gives you access to lower pricing on some drugs at various local pharmacies or with a home delivery service.

Q: Can I use this discount in addition to my insurance or to reduce my co-pay?

Answer: No, freshbenies can't be used in conjunction with other discount or insurance cards. Compare pricing for your prescription with any insurance or discounts you have to make sure you get the best price. Sometimes freshbenies will be lower and sometimes your insurance may be lower.

Q: Will I save on every drug?

Answer: Unfortunately, no. There are 3 drug categories...

NO SAVINGS: BOO! Maybe one in three drugs has pricing that's set by the pharmaceutical company and there's just no savings. If you use the freshbenies pricing tool in your app or portal, you'll know your drug falls into this category if there's very little price difference from one pharmacy to the next. The price will likely be MUCH higher than what you'd pay using your insurance. Sorry!

LOW CO-PAY: If you have insurance, some plans offer a low co-pay on a range of common drugs (say, \$5). In this case, skip the savings plan, and happily pay the co-pay.

SAVINGS: On many drugs, not only is there a big discount from the retail price, but there can be a LOT of fluctuation in price between stores and/or home delivery. In reviewing medications in the freshbenies pricing tool, we've seen them fluctuate from \$150 at a pharmacy on one corner to \$4 just down the street.

Q: Is there a limit to the number of times I can use the discount?

Answer: No.

LOCAL PHARMACY

Q: What if the pharmacy doesn't recognize my discount?

Answer: Your freshbenies Rx Savings includes discounts from three different savings networks. When you select your preferred price/location from your Rx search, be sure to get the Savings Card for that medication choice. Then, show the pharmacist the Savings Card for each med (printed or on your app). They'll understand which program you're on. If your pharmacy is in the network but unable or unwilling to process your discount, you can have the pharmacist call us at 877-640-7912 (Monday to Friday, 7:00 am to 7:00 pm, and Saturday from 8:00 am to 5:00 pm CST).

HOME DELIVERY

Q: How do I order other medications, refills, or renewals through home delivery?

Answer: To order a new prescription, search for a medication and choose Home Delivery with GeniusRx. Follow the steps to submit your order. GeniusRx will contact your doctor to confirm the prescription. To refill or renew a medication you have already received through home delivery, please call GeniusRx at 888.504.0327.

NOTE: Home Delivery currently not available in Alabama.

Q: How long does it take to get prescriptions mailed to me?

Answer: After the prescription is confirmed with your doctor, your order will ship in 1-2 business days and deliver in 2-5 days via free Standard Shipping.

MEDS FOR PETS

Q: What types of pet medications are included in this program?

Answer: You can use freshbenies to save on many human medications that pets are also prescribed antibiotics, antidepressants, and drugs to treat diabetes and asthma. It doesn't work on medications that are prescribed exclusively for animals - certain types of parasiticides or vaccines.
